

Floating Sink Preparation Options

A

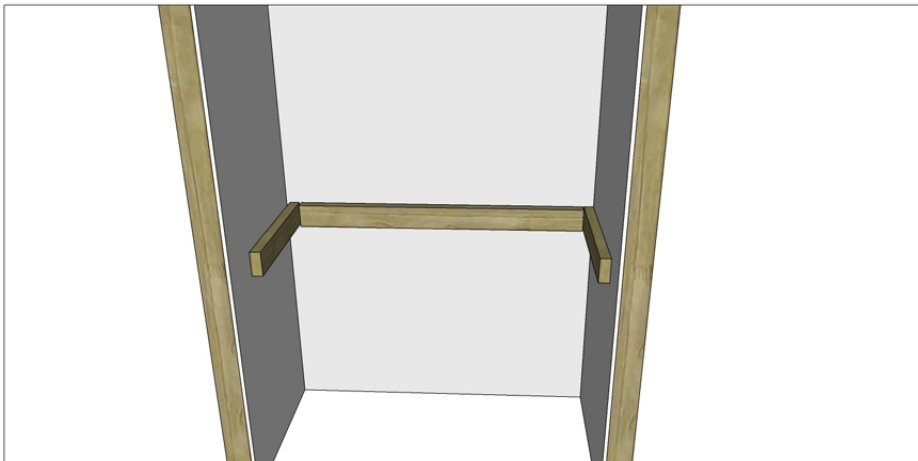

The sink will float by resting on one Floating Sink Bracket (L or T). The side & back wall will rest on wall cleats.

B

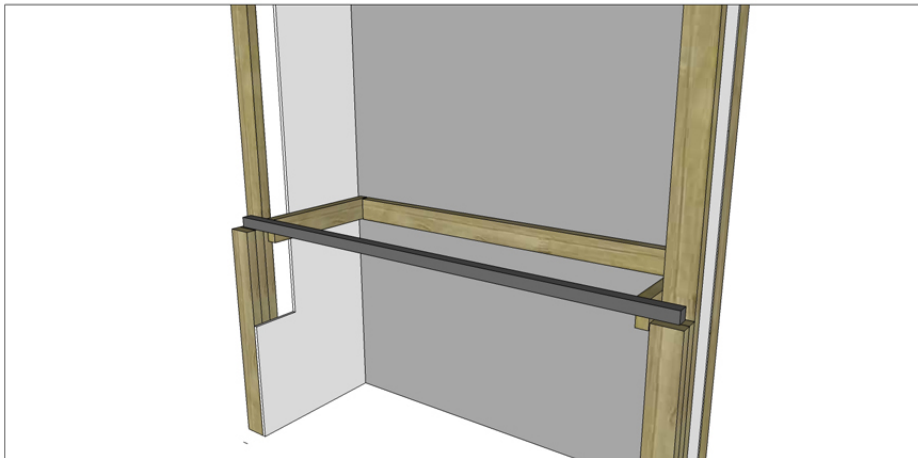

The sink will float by resting on 2 Floating Sink Brackets (L or T).

C

The sink will float by resting on 3 wall cleats: Left, Back, Right

D

The sink will float by resting on 3 wall cleats: Left, Back, Right. The front of the sink will be supported by a properly gauged tube steel bar. The bar will sit on wall blocking and be screwed into the studs.
